

**Ran Slavin**

**<https://ranslavin.com/>**

Ran Slavin is an artist who produces and explores in his work a hybrid world of video installations, 3D animated films, holograms, graphic projects, new cinema, music and live video sound performances. His digital work inherently takes place on several levels simultaneously. Post production, post photography and post electronic music. The reference to image and sound in his works is fragmentary and digital in process. It stems from a layered concept of disassembly for the purpose of reassembled examination of new aesthetics derived from techno-social changes. This assembly re-examines the essence of perception of reality in the present, on its new evolving virtual, global and cognitive spaces. Practically all the production processes of his works remain under his hands, directing, photography, editing, post-production, sound design, script and art. His works examine mythical, historical, and fictional narratives through metaphors of science fiction, memory, dreams, and hallucinations as tactics of human survival in the growing world of Big Data. Since graduating from Bezalel Art academy in 1990, he has exhibited in many exhibition spaces and platforms internationally. As film maker, video artist, visual designer and sound composer has released some 16 solo records on various international labels and shown/showing among the platforms:

Venice Art Biennale 2022, Nakanajo Biennale Japan 2021, Rubin Museum 2020, huge outdoor work in Hong Kong, solo exhibition at the Herzliya Museum of Contemporary Art, honorable mention at Ars-Electronica new media festival at Linz Austria, won the Minister of Culture Award 2021, the Encouragement of Creativity Award, won awards for directing video clips and the Young Artist Award and the Sharet Foundation Award. His films have been screened at the POFF Black Nights Film Festival, Camerimage Film Festival, Haifa and Jerusalem International Film Festivals, AVIFF Cannes Art Film Festival (winner online Award), Utopia Film Festival (winner best Film), Ficci The International Film Festival of Cartagena De Indias, Asian Film Festival Barcelona, 10th Cinefantasy International Fantastic Film Festival São Paulo, Brazil and many more.
